

AMENDMENTS TO THE SPECIFICATION

Page 21: Please amend the last full paragraph bridging pages 21 and 22 as follows:

Operating means such as a CPU executes a program stored in storage means such as a ROM (read only memory) and a RAM (random access memory) so as to control input means (e.g., a keyboard), output means (e.g., a display), or communication means (e.g., an interface circuit). In this way, the members and processes of the display apparatus of the foregoing embodiment are achieved and executed. Therefore, the foregoing various functions and processes of the detecting apparatus of the present embodiment can be achieved by simply causing a computer having these means to read and execute the program stored in a computer-readable recording storage—medium. Further, by storing the program in a removable computer-readable recording storage—medium, the various functions and processes can be achieved on any computer.

Page 22: Please amend the first full paragraph as follows:

Such a computer-readable recording—~~program storage~~ medium may be a memory (not shown), such as a ROM, so that the process is executable on a microcomputer. Alternatively, a program medium may be used which can be read by inserting the computer-readable recording—~~storage~~ medium in an external storage device (program reader device; not shown).

Page 22: Please amend the last full paragraph bridging pages 22 and 23 as follows:

In addition, the program medium is a computer-readable recording storage medium arranged so that it can be separated from the main body. Examples of such a computer-readable recording program medium include a tape, such as a magnetic tape and a cassette tape; a magnetic disk, such as a flexible disk and a hard disk; a disc, such as a CD/MO/MD/DVD; a card, such as an IC card (inclusive of a memory card); and a semiconductor memory, such as a mask ROM, an EPROM (erasable programmable read only memory), an EEPROM (electrically erasable programmable read only memory), or a flash ROM. All these storage media hold a program in a fixed manner.
